DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 10-13 are rejected under 35 U.S.C. 102(b) as being anticipated by Pasero.

Pasero discloses a support frame having a base (20), a motor frame attached to the support frame along a first pivot line (fig. 1), a base frame attached to the motor frame, the base frame having a roller mounted on an axle, the axle being seated in at least one bushing and including a threaded recess (col. 4, lines 28 – et seq.), a threaded fastener extending through the bushing into the threaded recess of the axle, the threaded fastener being adapted to adjust the position of the roller by engaging with the threaded recess of the axle recess (col. 4, lines 28 – et seq.), a support bed, a belt extending over the support bed and adapted to be driven by the roller (fig. 1), a drive motor attached to the motor frame (28), axle is seated in a second bushing, and the belt urges the axle into the second bushing (col. 4, lines 28 – et seq.).

Allowable Subject Matter

Claims 14-23 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
